Basketball

EDUCATION

Mathematics – Science

2012–2015

High/School : Holy redeemer school

Computer Science

2016–2020

Undergraduate : Khon kaen University

WORK EXPERIENCE

FREELANCER

6 months

I have gained valuable experience in developing and deploying successful applications using PHP, with 2 projects under my belt. My skills in PHP programming and attention to detail make me a strong asset in the development of a web-based Point of Sale (POS) system. I am able to work on both front-end and back-end development and have a passion for creating user-friendly, visually appealing applications. These skills and experience make me well-equipped to handle the challenges and demands of a POS project using PHP.

SOFTWARE DEVELOPER

2020 – Now

I have 2 years of experience in software development and am skilled in C# and PHP. I have worked on successful projects using C# and the .NET framework, as well as ASP.NET. I have a focus on API development and am proficient in both front-end and back-end development. I am passionate about creating user-friendly and visually appealing applications. I am always looking to learn and stay up to date with the latest technologies and programming trends.
